Headteacher's Latest News

It has been a very successful week as the build up to December and Christmas continues.

A huge well done to our exceptional Year 4 – 6 school choir who performed so very well at The Castle Theatre last week that commenced our Christmas celebrations. We were so proud of each of the 42 children who absolutely shone on stage and sang their hearts out. Thank you to Miss Love for preparing the children so very well and giving the children such a memorable experience.

Also very well done to our cross country team who performed brilliantly at the East Northants championships last week. We took 48 children and we were delighted to find out that we came in 4th place out of 17 schools which we are very proud of. Notable performances came from Jessie-Mai (3rd), Jibrán (10th), Aldiniah (13th), Tayseer (16th) Scarlett (17th), Filip (20th) in their respective races. With around 150 children in each race, the children can be very proud of themselves.

Well done to Year 5 who have completed their swimming lessons at the Waendal Leisure Centre and were presented with a wealth of certificates in assembly today. It is great to see so many children successfully swimming and enjoying their time in the pool.

We have a very active and hard-working Governing Body. They work so hard to make significant contributions to the school and ensure we are providing the best possible education for all our children. We are delighted to welcome Nikita Brookes and Shumon Choudhury onto the Governing Body as parent governors.

We have a Book Fair in school next week. This is open from Tuesday 2nd December for a week and is open every day after school. Please feel free to pop along and maybe get some Christmas presents for your children.

We are so fortunate to have such a wealth of extra-curricular clubs for the children that have run this term. These will finish on Friday 5th December until we come back to school in the new year.

We have a lots of Christmas events planned before the end of term. Parents, carers and extended family are very welcome to attend the Year 3 Christmas Production on Thursday 11th December either at 1.30pm or 6.00pm. It is always such a wonderful occasion and I'm sure there will be many memorable performances. Also on Wednesday 17th December at 6.00pm, we are holding our annual Christmas Concert where all children are performing. It will be a fabulous evening of music, various readings and singing. Once again everyone is invited to attend. We will holding a raffle on this evening - if anyone would like to make a raffle prize donation, it would be hugely appreciated.

On Monday 15th December from 3.30pm – 5.00pm, we are holding our Christmas Disco for the children which is always a popular occasion. Tickets are available through the school office and are priced at £2.50.

The whole school is looking forward to watching Beauty and the Beast at The Castle Theatre on Tuesday 16th December. We are watching the 1.30pm show. This does mean we may be late returning back to school, slightly later after the usual 3.30pm. We will confirm precise timings nearer the time.

Thursday 18th December is Christmas lunch day – please order through School Grid for your child's traditional Christmas lunch. It is also Christmas party day, Christmas jumper day and we get a special visit from Santa in the afternoon.

Children are free to bring in their Christmas cards for their friends from Monday 8th December where there will be a post box in the hall for them to use.

Just a reminder we finish for Christmas on Friday 19th December (mufti day) for a well earned break.

Kind regards.

David Tebbutt

AI Chatbots and companions

A simple search of “AI Chat” within the App store highlights the number of AI apps already available, many are rated as 18+ so it is important to speak to our children about them and the risks associated with them. Examples of AI chatbots that your child may have heard of are Character.AI (18+) and My AI from Snapchat (13+).

What are the risks?

- Over reliance on AI companions, for example they may replace ‘real life’ friendships or over reliance on using them for homework or problem solving.
- Exposure to inappropriate content.
- Privacy/data risks.
- Misinformation as not all information shared is correct and can be biased.

How can I protect my child?

- Check age ratings of any apps or websites that your child accesses.
- Discuss the risks of AI chatbots with them and have open conversations about why they may be using them.
- Set up appropriate parental controls on their devices/ broadband.
- Chat to your child regularly and ensure your child knows that they should talk to you or another trusted adult if anything concerns them.

New Technology

As some children may be receiving new technology or related games at Christmas, here is a quick reminder of the importance of setting up appropriate parental controls.

Games/Consoles

- Check age ratings: look at the PEGI rating of any new games. Remember, PEGI rates the gameplay so whilst it is important to review age ratings, you must also check to see if it has any communication elements.
- If a game does allow your child to communicate with others, then adjust or disable the settings as appropriate to your child.
- On the device itself, set up applicable controls such as restricting spending limits. Follow the links below to find out how to set up Parental Controls for popular devices here:

Xbox: <https://www.xbox.com/en-GB/family-hub>
PS5: <https://www.playstation.com/en-gb/support/account/ps5-parental-controls-spending-limits/>
Nintendo Switch: <https://www.nintendo.com/en-gb/Hardware/Nintendo-Switch-Parental-Controls/Nintendo-Switch-2-Nintendo-Switch-Parental-Controls-2873985.html>

Tablets/Smart phones

Set up parental controls on the device to prevent purchases, restrict content viewed and adjust privacy settings. Furthermore, remember to check any apps your child requests to check that they are suitable for their age. Follow the links below to find out more:

IPhones/iPad: <https://support.apple.com/en-gb/105122>
Android Device: <https://support.google.com/families/answer/1075728>

Further information
<https://www.internetmatters.org/parental-controls/>

The Safety-First Smartphone

The Other phone is a new smartphone, which includes “SafetyMode” software. The software automatically blocks nudity, profanity, and bullying language in real-time. You can find out more here: <https://otherphone.co.uk/>.

Smart Phone Free Childhood also list some alternatives that you could consider here: <https://www.smartphonefreechildhood.org/alternatives>.

Please note, that the inclusion of these models does not constitute an endorsement or recommendation. While these devices may provide a ‘safer’ alternative to traditional smartphones, there are still potential risks associated with children using any type of phone.

Roblox

Following a recent ITV investigation*, which found extremist content on Roblox, we thought we would provide a reminder of what you need to be aware of. Roblox is a platform consisting of a collection of games. Players can either create games or play games that other users have created. It is free to download (however subscription options and in-game/app purchases are available) and can be played across numerous devices. **A lot of the content is user generated, which means not all games will be suitable for your child to view/play.** If your child is playing Roblox, it is important to monitor what your child is accessing and set up appropriate parental controls. **PEGI rate Roblox with a Parental Guidance label, this is because it is considered a platform with a huge level of user generated content.**

What should I be aware of?

Game content – as mentioned, users create games so the content/themes may not be appropriate for your child. Roblox label content based on the type of content rather than by age. The labels are Minimal, Mild, Moderate and Restricted.

Chat Facility – Players can chat with each other (users under the age of 13 need parent permission to access certain chat features though). You can turn communication off completely or add restrictions, such as only able to communicate with friends.

Virtual Currency – Players can buy Robux (their virtual currency) to buy in-game upgrades or accessories.

How do I report abuse and block users?

This article outlines the different reporting facilities:
<https://en.help.roblox.com/hc/en-us/articles/203312410-How-to-Report-Rule-Violations>

What else can I do?

Chat to your child regularly about what they are doing online and remind your child that if anything is worrying them, then they should talk to you or another trusted adult.

Signal Private Messenger

Signal is rated as 13+ on the App store. It is a messaging app, where users can text, send voice messages and photos plus participate in group chats and calls. There are no parental controls currently available. As with all messaging apps, the risks can include bullying and viewing inappropriate content. Find out more here: <https://www.nspcc.org.uk/keeping-children-safe/online-safety/social-media/chat-apps/>

Users of this guide do so at their own discretion. No liability is entered into. Content all of the above released 01.12.20. The inclusion of any links does not imply any affiliation with or endorsement of the linked websites, documents, or videos, nor are we claiming any ownership or copyright in the content of the linked materials.

Discord

Discord is a social networking app originally designed for gamers but is now used by lots of different people to chat to each other online. The minimum age to access Discord is 13. The App store rates it as 17+.

Discord is made up of servers, which are spaces for groups to chat, upload files and share images etc. Anybody can set up a server, and they can either be public or private. Users can video call and send direct messages to other individuals or groups. Children who play online games such as Fortnite may use Discord to chat whilst playing the game (rather than using the game's own chat facility). In-app purchases are available through Discord's subscription service called Nitro.

How can I make it safer?

Discord have created a Family Centre, which provides further information about what Discord is, as well as information about different safety settings available: <https://discord.com/safety/family-center>

As always, we would encourage you to chat to your child to see why they use Discord and ensure that they know how to block users and what to do if they see any inappropriate content. It is important to be aware that Discord does include video/voice calling which cannot be filtered. Discord is used by an array of users and therefore adult content can be found on Discord as well as inappropriate language. Discord have produced this article, which answers frequent questions: <https://discord.com/safety/3600441495-91-involving-parents-and-educators-top-subjects>
