Minutes:

Good afternoon everyone. We have had a super first proper school council session with everyone in attendance this afternoon.

We allocated our new roles for all members of the school council, making sure we were all aware of the expectations for the year

We spoke about suggestion boxes and how we can continue to use these. Some classes have already continued to use this year already, but for our new year 3s, each classroom will have a suggestion box in the room, anything you wish to put forward to the school council can be added to the box and then your reps will bring this along to their meeting.

This week we were helping Mrs Patel with her new display for the library, looking at what our favourite books were. Watch this space for more information on this.

We hope you have a brilliant rest of your week,

From Your School Council.
