Headteacher's Latest News

Celebrating a fantastic half term!

Dear Parents and Carers,

It has been a fantastic half term, and it really has flown by! With just four school days remaining, the children have already achieved so much, and we are incredibly proud of how settled, hardworking and enthusiastic they have been.

This week, we welcomed two headteachers from NPAT, who were full of praise for our children. They commented on their excellent behaviour for learning, courteous manners and commitment to improving their work. It is wonderful to see our school values reflected in the children every day!

🏃 **Cross-Country Champions!**

Last week, we took 48 children to the annual cross-country championships, with 12 children representing each year group. There were some fantastic performances, and we were delighted to see so many children giving their very best.

A special mention goes to **Egle (5th), Isla-Rose (6th) and Tayseer (6th)**, alongside Jaxon (21st), Aldiniah (21st) and Vicky (21st) who also achieved impressive finishes in their respective races.

With approximately 150 children competing in each race, these were brilliant achievements! Even more excitingly, we finished **5th out of 15 schools** overall. We are incredibly proud of everyone who took part and represented our school so brilliantly. Well done, everyone!

💻 **Staying Safe Online**

Yesterday, we welcomed Simon Aston to speak to our Year 5 and Year 6 children about online safety and the challenges young people can face when using the internet.

The session was thought-provoking, and the children listened with great maturity and understanding. We hope they will put the advice they received into practice and feel more confident about keeping themselves safe online.

🍂 **Harvest Assembly – Tuesday 20th October**

We are really looking forward to our Harvest Assembly next **Tuesday 20th October at 9.15am**. Everyone is warmly invited to join us and enjoy the wonderful performances prepared by children from across the school.

We are also delighted to welcome representatives from the **Wellingborough Daylight Centre**, who will receive the generous donations of produce from our school community.

Thank you to everyone who has already donated. There is still time to contribute, so please keep the donations coming right up to the day itself. We look forward to displaying everything for our school community to see!

🎯 **Attendance Matters!**

We are delighted with the children's attendance this term. Our attendance is higher than it was at this point last year, which is fantastic news!

Our current attendance stands at **96.8%**, and our target for the academic year is **97%**. We hope the winter bugs stay away so that we can continue building on this positive start.

Thank you for your continued support in helping your children attend school regularly and make the most of every learning opportunity.

□ School Disco & Mufti Day – Thursday 22nd October

It's time to celebrate a marvellous half term!

Our school disco will take place on **Thursday 22nd October, from 3.30pm to 5.00pm**, and all children are welcome to attend.

A few important reminders:

- Children may bring a maximum of **£5.00** to spend on refreshments (in 50p's,20p's,10p's please)
- The day will also be a **mufti day**, so there is no need to bring a change of clothes.
- At the end of the disco, parents and carers will be directed to collect their children from the school hall.

We look forward to a fun-filled afternoon celebrating the children's hard work!

🗓️ **Looking Ahead: Return to School**

Following the autumn half-term break, school will reopen on **Tuesday 3rd November**.

As a reminder, we strongly encourage families to arrange routine medical appointments outside school hours wherever possible, helping to minimise interruptions to children's learning and progress.

🤝 **Parents' Evening – 10th & 11th November**

We are looking forward to welcoming parents and carers to our parents' evenings on **Tuesday 10th and Wednesday 11th November, from 3.40pm to 6.00pm**.

A letter will be sent home next week with details of how to book an appointment through Arbor.

We strongly encourage every child to be represented at these meetings. They are a valuable opportunity to celebrate your child's achievements, discuss their progress and agree on targets for the year ahead.

📷 **School Photograph Day – Wednesday 11th November**

Our annual school photography day will take place on **Wednesday 11th November**. All children will have an individual school photograph taken.

If you would like a sibling photograph, please complete the form sent out last week.

Pre-school children are welcome to come into school from **8.00am** to have their photograph taken with their school-age sibling.

🤍 **Thank You for Your Continued Support**

As we approach the end of another successful half term, we would like to thank all our parents and carers for your continued support. The children have worked incredibly hard, embraced new challenges and achieved so much, and we are very proud of them.

We hope you all have a wonderful weekend and enjoy a well-deserved rest before our final few days of this half term!

Have a lovely weekend, everyone!

Kind regards,

David Tebbutt

Online Safety Newsletter October 2026

CapCut

CapCut is a video editing app. Their services are intended for those over the age of 13 (those under the age of 18 must have consent from their parent/legal guardian). It is rated as 13+ on the App store.

What can I do on CapCut?
CapCut is used as a video and image editing tool allowing users to edit their videos/ images as well as add music, sound effects, text and stickers.

What should I be aware of?
- The templates are user generated, therefore they may not always be appropriate for your child to view, for example may contain adult themes.
- CapCut includes access to a library of music that may include explicit lyrics.
- Premium content – CapCut does include in-app purchases/monthly subscriptions to allow users access to premium content.

AI companions

What are AI companions?
AI companions are artificial intelligence services designed to interact with users to simulate friendship or romantic relationships. There are many different AI companions available, accessible via apps or websites. **Many of these apps are intended for adults and have an age rating of 18+.**

Why are children using AI companions?
There are many reasons a child might want to use an AI companion, including:

- To ask advice and questions that they may be embarrassed to ask another person. It may be easier to talk to an AI companion, so it is imperative children understand the difference between AI and real people.
- They feel lonely and are looking for friendship.
- Children may just be curious and want to try new technology.

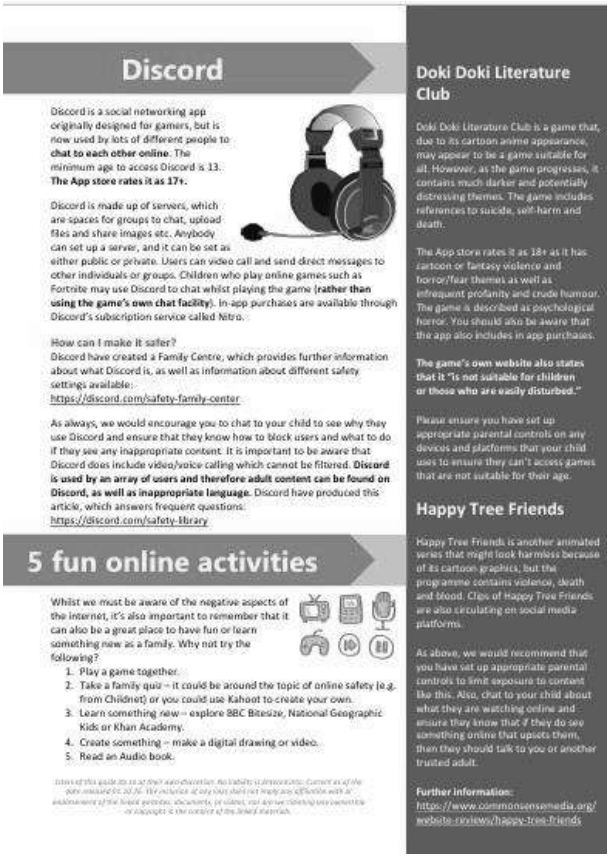

What should I be aware of?

- **Age restrictions:** it is important to check the age rating to see if it is appropriate for your child.
- **Inappropriate content:** there is often a lack of moderation so users could be exposed to content/language that is not suitable for their age.
- **Emotional dependence:** AI companions are designed to act as a friend, encouraging an emotional dependence. This may lead to your child becoming over reliant on the service. A chatbot should never replace a parent, a medical professional or other trusted adult.
- **Relationships:** repeated use of AI may influence a child's understanding of relationships and consent in real life.
- **Privacy and personal information:** children should not share personal or confidential information with AI companions.

What can I do?

- Check the age rating and any privacy settings.
- Set up appropriate parental controls on their devices/ broadband.
- It is crucial to have regular conversations with your child about the risks outlined above and about what they are doing online. Ensure your child knows that they should talk to you or another trusted adult if anything concerns them.

Discord

Discord is a social networking app originally designed for gamers, but is now used by lots of different people to **chat to each other online**. The minimum age to access Discord is 13. **The App store rates it as 17+.**

Discord is made up of servers, which are spaces for groups to chat, upload files and share images etc. Anybody can set up a server, and it can be set as either public or private. Users can video call and send direct messages to other individuals or groups. Children who play online games such as Fortnite may use Discord to chat whilst playing the game (**rather than using the game's own chat facility**). In-app purchases are available through Discord's subscription service called Nitro.

How can I make it safer?
Discord have created a Family Centre, which provides further information about what Discord is, as well as information about different safety settings available:
https://discord.com/safety-family-center

As always, we would encourage you to chat to your child to see why they use Discord and ensure that they know how to block users and what to do if they see any inappropriate content. It is important to be aware that Discord does include video/voice calling which cannot be filtered. **Discord is used by an array of users and therefore adult content can be found on Discord, as well as inappropriate language.** Discord have produced this article, which answers frequent questions:

5 fun online activities

Whilst we must be aware of the negative aspects of the internet, it's also important to remember that it can also be a great place to have fun or learn something new as a family. Why not try the following?

1. Play a game together.
2. Take a family quiz – it could be around the topic of online safety (e.g. from Childnet) or you could use Kahoot to create your own.
3. Learn something new – explore BBC Bitesize, National Geographic Kids or Khan Academy.
4. Create something – make a digital drawing or video.
5. Read an Audio book.

Users of this guide do so at their own discretion. No liability is entered into. Current as of the date released 1.9.20. The inclusion of any apps does not imply any affiliation with or endorsement of the listed persons, documents, or videos, nor do we claim any ownership or copyright to the content of the listed materials.

Doki Doki Literature Club

Doki Doki Literature Club is a game that, due to its cartoon anime appearance, may appear to be a game suitable for all. However, as the game progresses, it contains much darker and potentially distressing themes. The game includes references to suicide, self-harm and death.

The App store rates it as 18+ as it has cartoon or fantasy violence and horror/fear themes as well as infrequent profanity and crude humour. The game is described as psychological horror. You should also be aware that the app also includes in app purchases.

The game's own website also states that it "is not suitable for children or those who are easily disturbed."

Please ensure you have set up appropriate parental controls on any devices and platforms that your child uses to ensure they can't access games that are not suitable for their age.

Happy Tree Friends

Happy Tree Friends is another animated series that might look harmless because of its cartoon graphics, but the programme contains violence, death and blood. Clips of Happy Tree Friends are also circulating on social media platforms.

As above, we would recommend that you have set up appropriate parental controls to limit exposure to content like this. Also, chat to your child about what they are watching online and ensure they know that if they do see something online that upsets them, then they should talk to you or another trusted adult.

Headlice

We have had reports of headlice in the school and would be grateful if you could check your child and treat the infestation if necessary. If your child has long hair, then it may be appropriate to have it tied back whilst at school.

Females lay about 6 eggs known as nits and these are attached to the hair near the scalp. Eggs hatch in 7 days. It is possible to have only one active louse, but to have hundreds of eggs waiting to hatch so always check all eggs have been cleared away.

Medical experts say the best and cheapest method to try to prevent your child getting head lice is to cover the scalp and hair with conditioner and then wet comb through with a specially designed nit comb. Several sessions weekly may help your child to stay free of nits

and head lice. Do not treat with chemicals unless there is an infestation. Remember too that head lice can live in pillows and bedding for up to two days so always treat them.

Many thanks for your continued support.
